This research project is: (Check all that applies)

Single site study / MD / Master Thesis.

Multi-center study (Specify):

National Collaborative project (Specify):

International collaborative project (Specify):

Others (Specify):

Does the propose research has any Ethical consideration?

Yes

No

Please justify:

Does the proposed research receive financial funding?

Yes

No

Please justify:

Request is being made for an exploited review?

Yes

No

Please justify:

How to save data:

Data retention period:

How to destroy data:

List any expected financial support to the subjects:

List any expected ethical concern to the subjects:

List the expected risks of the study to the subjects:

List the potential benefits, if any, to the subjects:

The risks are reasonable to the potential direct benefits to the subjects, if any, or to the knowledge to be gained?

Yes

No

Indicate whether this study will contain dangerous/biohazards materials?

Yes (Specify:

No

• Date of Submission:

• Signature of the PI:

Please attach the following:

-The complete research proposal and study questionnaires.

-The CV of the principal investigator and all co-investigators.

-A valid certificate of completion of the scientific research ethics course from King Abdulaziz City for Science and Technology.
